Press Release

Davion Hill Elected President-Elect of NAATBatt

Chicago, Illinois, February 19, 2014: Davion Hill of DNV GL has been elected the President-Elect of the National Alliance for Advanced Technology Batteries (NAATBatt) for 2014. Dr. Hill is an R&D professional who has led DNV GL's efforts in developing battery system services for stationary, maritime and oil & gas applications. He also served as principal investigator in DNV KEMA's ARPA-E AMPED project on the monitoring of battery energy storage systems. Dr. Hill earned his Doctor of Philosophy in Physics from The Ohio State University in 2006. He has served on the Board of Directors of NAATBatt for the past two years and is expected to assume the Presidency of NAATBatt in 2015.

About NAATBatt

The National Alliance for Advanced Technology Batteries is the trade association for companies working in the field of advanced batteries and electrochemical energy storage technology in North America. NAATBatt's mission is to promote the commercial interests of its members by supporting developments in the science of and markets for advanced electrochemical energy storage technology in the United States and worldwide consistent with the goals of enhancing energy efficiency, reducing petroleum dependence and enabling carbon-free electricity generation. NAATBatt has 67 corporate members including automobile makers, battery manufacturers, electric utilities, national laboratories and advanced materials companies.
