

Battery Safety Training

Batteries become daily use components for many applications. More than that we can say that without batteries our life will change dramatically – Just think on life with no mobile phones.

In the race for energy density we sometimes forget the safety. Unfortunately we face daily safety events with injuries and severe damage.

The training program focuses on portable and stationary battery safety along battery cycle life (acceptance, testing, assembly, use, transportation and disposal).

The training incorporates Shmuel De-Leon and other experience on battery safety for over 25 years of work in the field.

The motivation behind the training is to provide training attendants with the knowledge needed to handle safely the batteries in their organization and to support reduction in safety events.

Key Benefits

Training provides:

- Full review of Root Cause for battery safety events.
- Guidelines on how to handle batteries safely.
- What to do guidelines in case of battery safety event.
- Check list of safety equipment needed.
- Fresh and updated knowledge about safety battery

Training Program Topics

- Battery essentials
- Primary cells & batteries
- Rechargeable cells & batteries
- Battery safety hazards
- Battery safety guidelines
- Battery safety equipment
- Battery safety design
- Battery safety disposal
- Battery safety transportation
- Battery safety standards and testing
- EV Battery safety

Training include presentations and Movies

Training Schedule

1 Day

Training Location

In-house Training

Presentation Hard Copy

Each attendant will get the presentations hard copy (We are not providing presentations soft copies)

Who Should Attend?

- Battery and energy storage users
- Pack assemblers
- Cell makers
- Energy storage suppliers
- Academic researchers
- Energy storage/Power R&D engineers
- Organization Safety managers
- Battery shippers and disposals
- E-Mobility industry members
- Others industry members

About Shmuel De-Leon

Shmuel De-Leon is Founder and CEO of Shmuel De-Leon Energy, Ltd.

Shmuel is a leading international expert in the business of Power Sources, Energy storage and Ev's.

Prior to founding the company, Shmuel held for over 20 years various positions as a power sources, engineering and quality control team manager.

Shmuel holds BSc. in mechanical engineering from Tel-Aviv University and MBA in quality control and reliability engineering from the Technion Institute in Haifa as well as an Electronic Technician's diploma.

Shmuel De-Leon Energy Ltd. provides unique tools for the energy sources industry, such as Consulting, Training, Conference organizer, Market research reports Market research reports Energy Sources Database, Market research reports , Energy Sources Solutions, Industry News weekly newsletter.
