Profile

Company Facts

CATL

Contemporary Amperex Technology Co., Limited

- **Abbreviation:** CATL
- **Establishment:** 2011
- **Stock Code:** SZSE 300750
- **Headquarters:** Ningde, China

Main business:

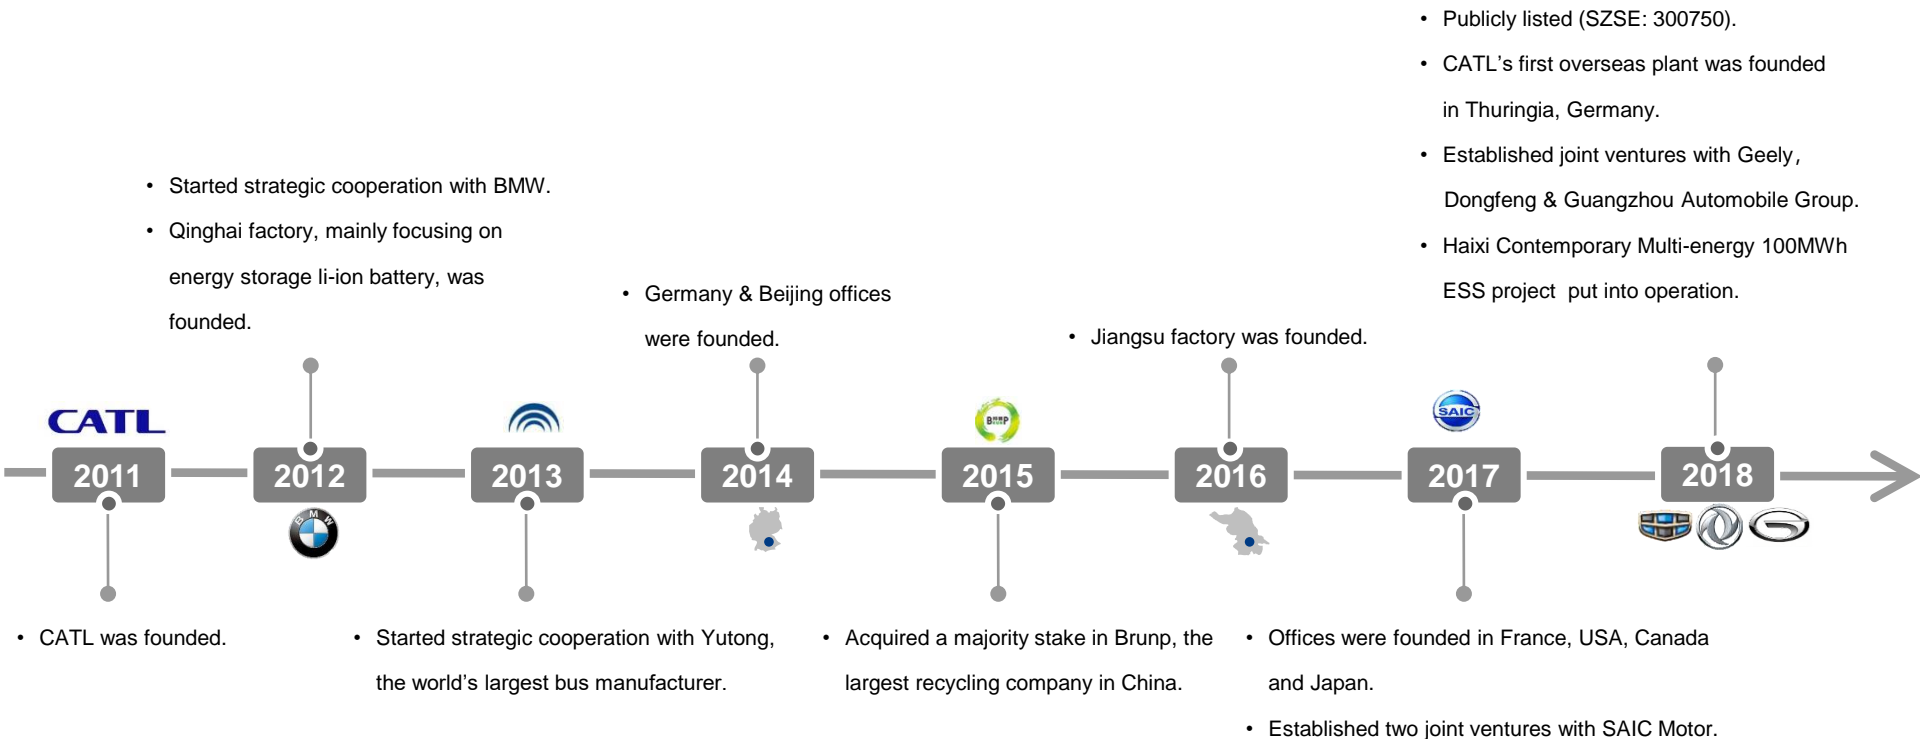

- EV battery development & production

- Energy storage system development & production

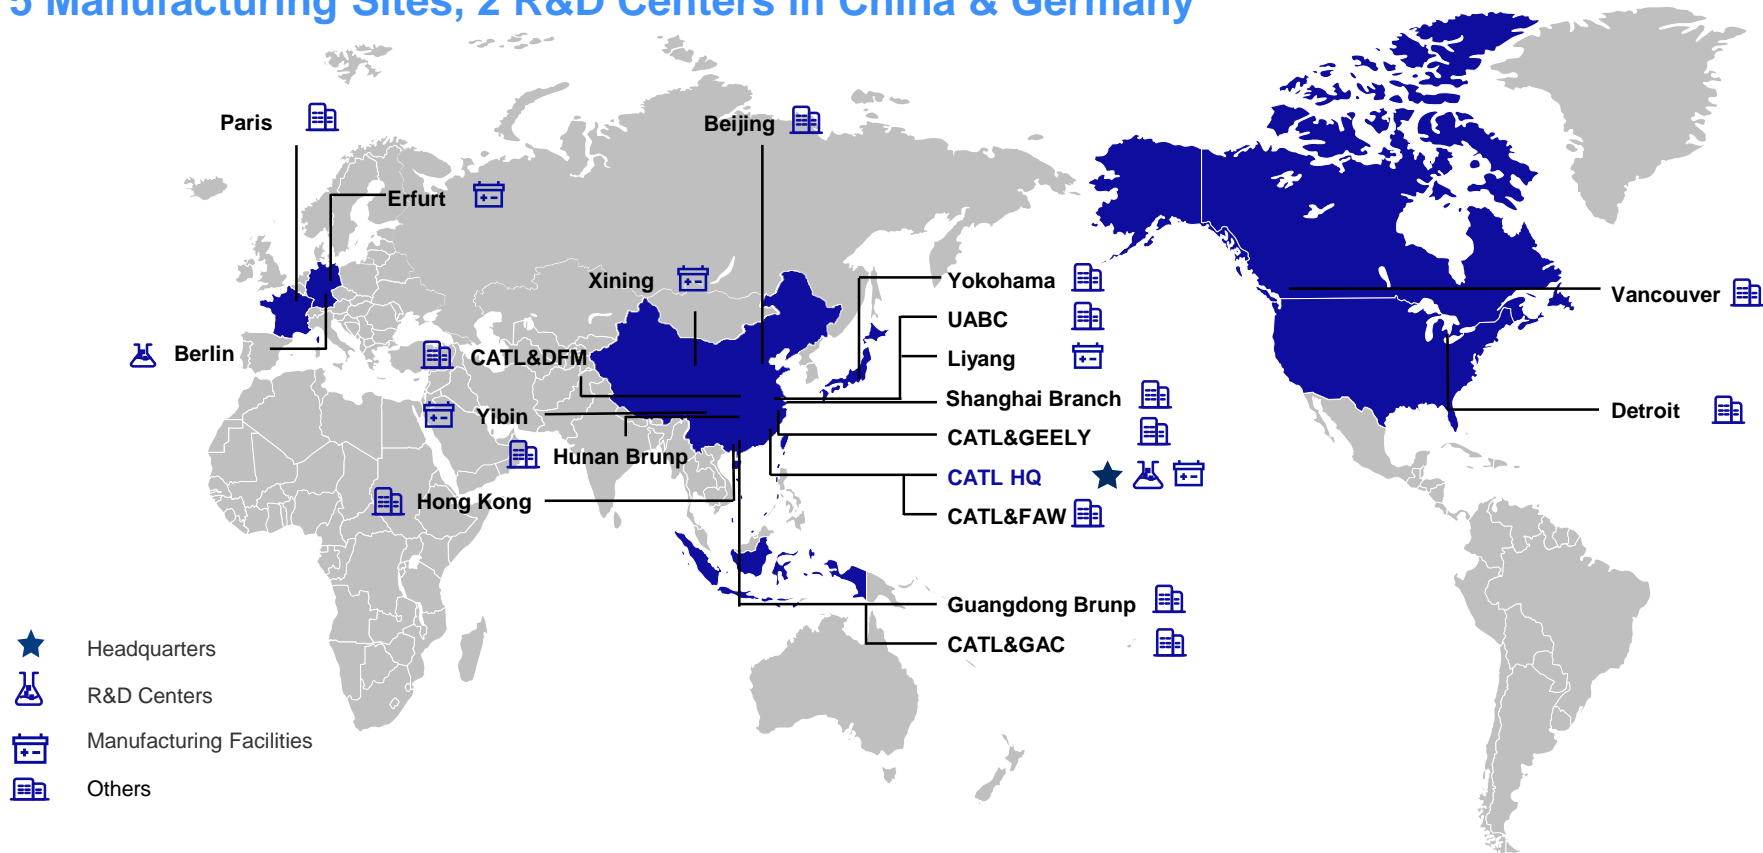

Company Milestones

Global Location

CATL

5 Manufacturing Sites, 2 R&D Centers in China & Germany

Safety is Our Top Priority

Verify every detail to ensure your safety during the entire life of battery system.

Design Safety

DFMEA model is adopted to maximally ensure excellent battery performance, long battery cycle life and design safety.

Product Safety

Safety design & comprehensive tests ensure CATL batteries to meet a series of electrical, mechanical, chemical & functional safety requirement.

Production Safety

PFMEA keeps the production process under control and conformed to battery design.

Application Safety

Collecting and analyzing big data to keep track of and send feedback of battery working condition, together with the 5-star after-sales service, CATL safeguards customers.

Mission:

Innovate to enable customers achievements, power your life

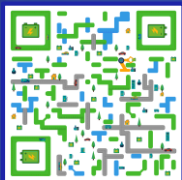

Vision:

Rooted in the Chinese culture while embracing the global culture, strive to be a global premier innovative technology corporation, deliver excellent contribution to green energy resolution for mankind, and provide a platform of pursuing the spiritual and material well-being for employees!

Values:

Refine Enable Strive Innovate
