

A long-exposure photograph of a city street at night. The foreground shows light trails from cars moving along a road. In the background, several tall skyscrapers are illuminated with various lights, creating a vibrant urban scene. The sky is dark, and the overall atmosphere is one of a bustling city at night.

Webasto Charging Systems Power Cycling & Battery Test Systems

Charging Onward

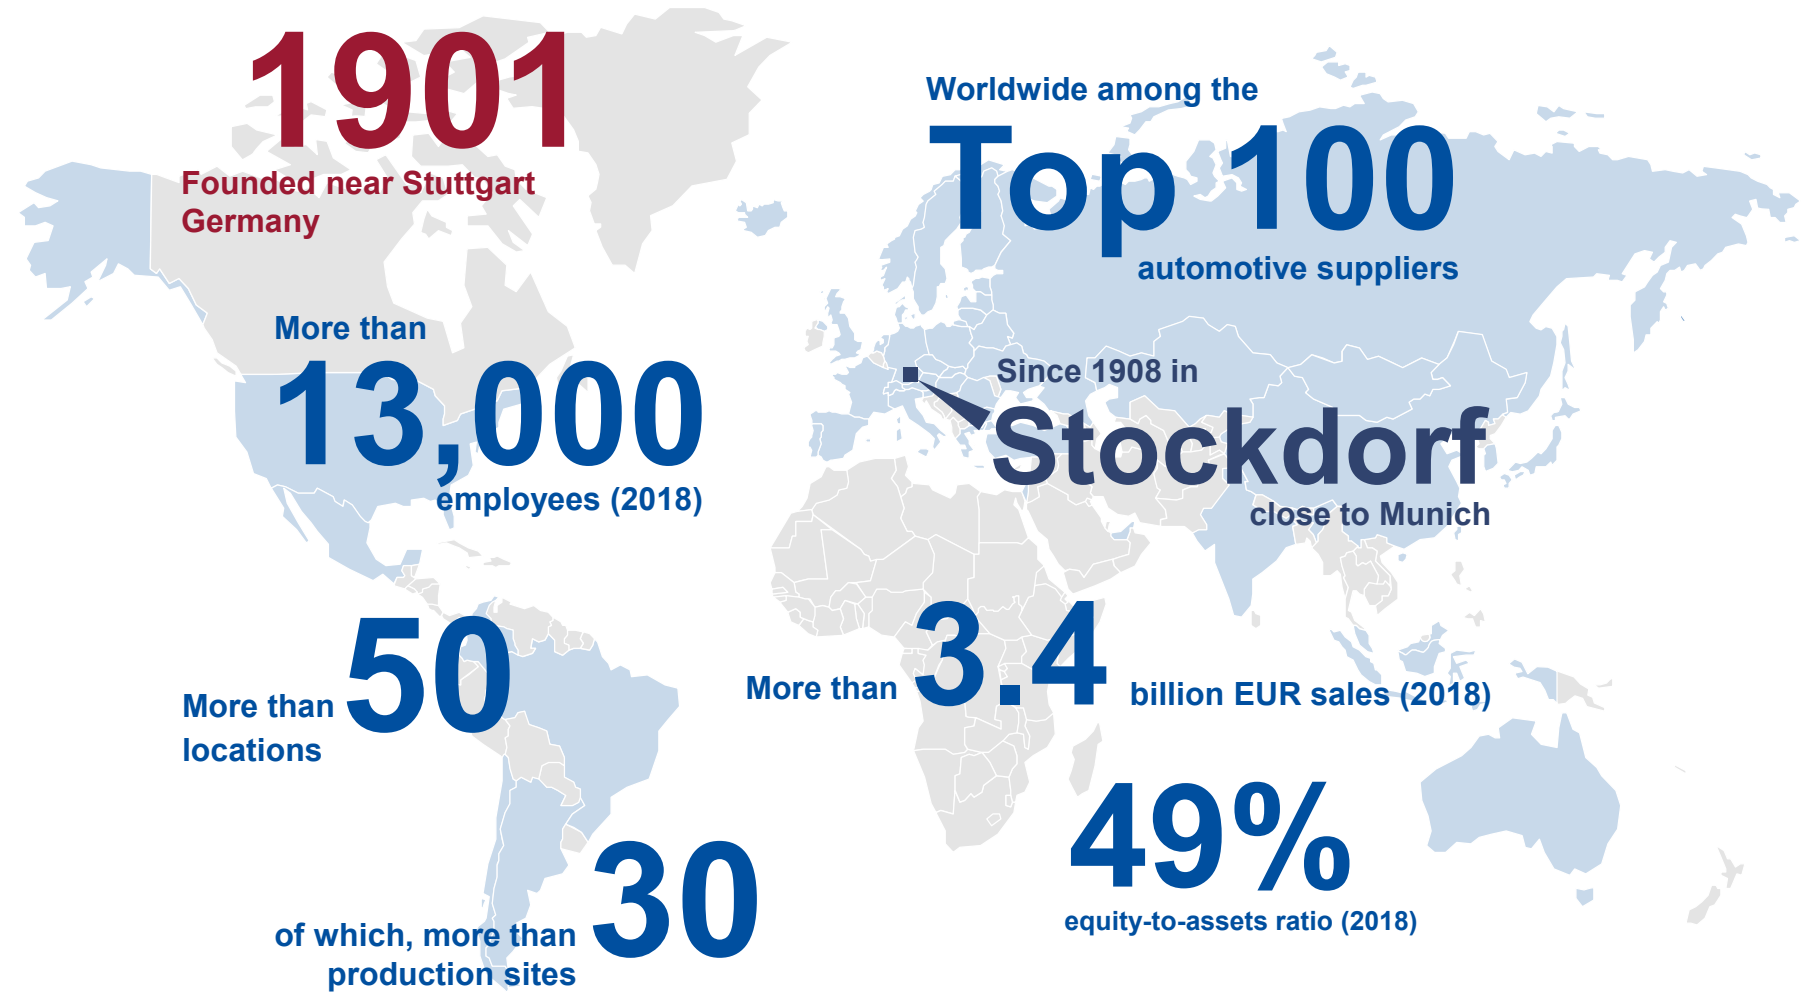

Acquisition of Charging & Battery Test Systems Business Unit

- In June 2018, Webasto acquired the EES business unit of AeroVironment
- Important step in further expanding Webasto's global presence and capabilities
- North American charging systems division is located in Monrovia, CA
- New Power Cycling & Battery Test Systems production facility located in Ontario, CA

Who is Webasto?

Global technology partner to almost all automotive manufacturers

Increased Capacity

- New manufacturing facility in Ontario, CA
- Shortened lead times
- Units available to ship within days, not weeks
- 900 EX units in-stock and ready to ship

Superior Quality

- Expanding our efforts to meet the most current international safety requirements and standards
- Webasto ensures high quality through global standards, procedures, and processes
- Our original units sold are still in use today – 20 years later

Better Support

- Global resources means better support for our domestic and international customers
- Best-in-class warranty on our products
- 24/7 call center and on-site engineering support
