RESOURCES

End-of-Life Solutions to Performance Materials

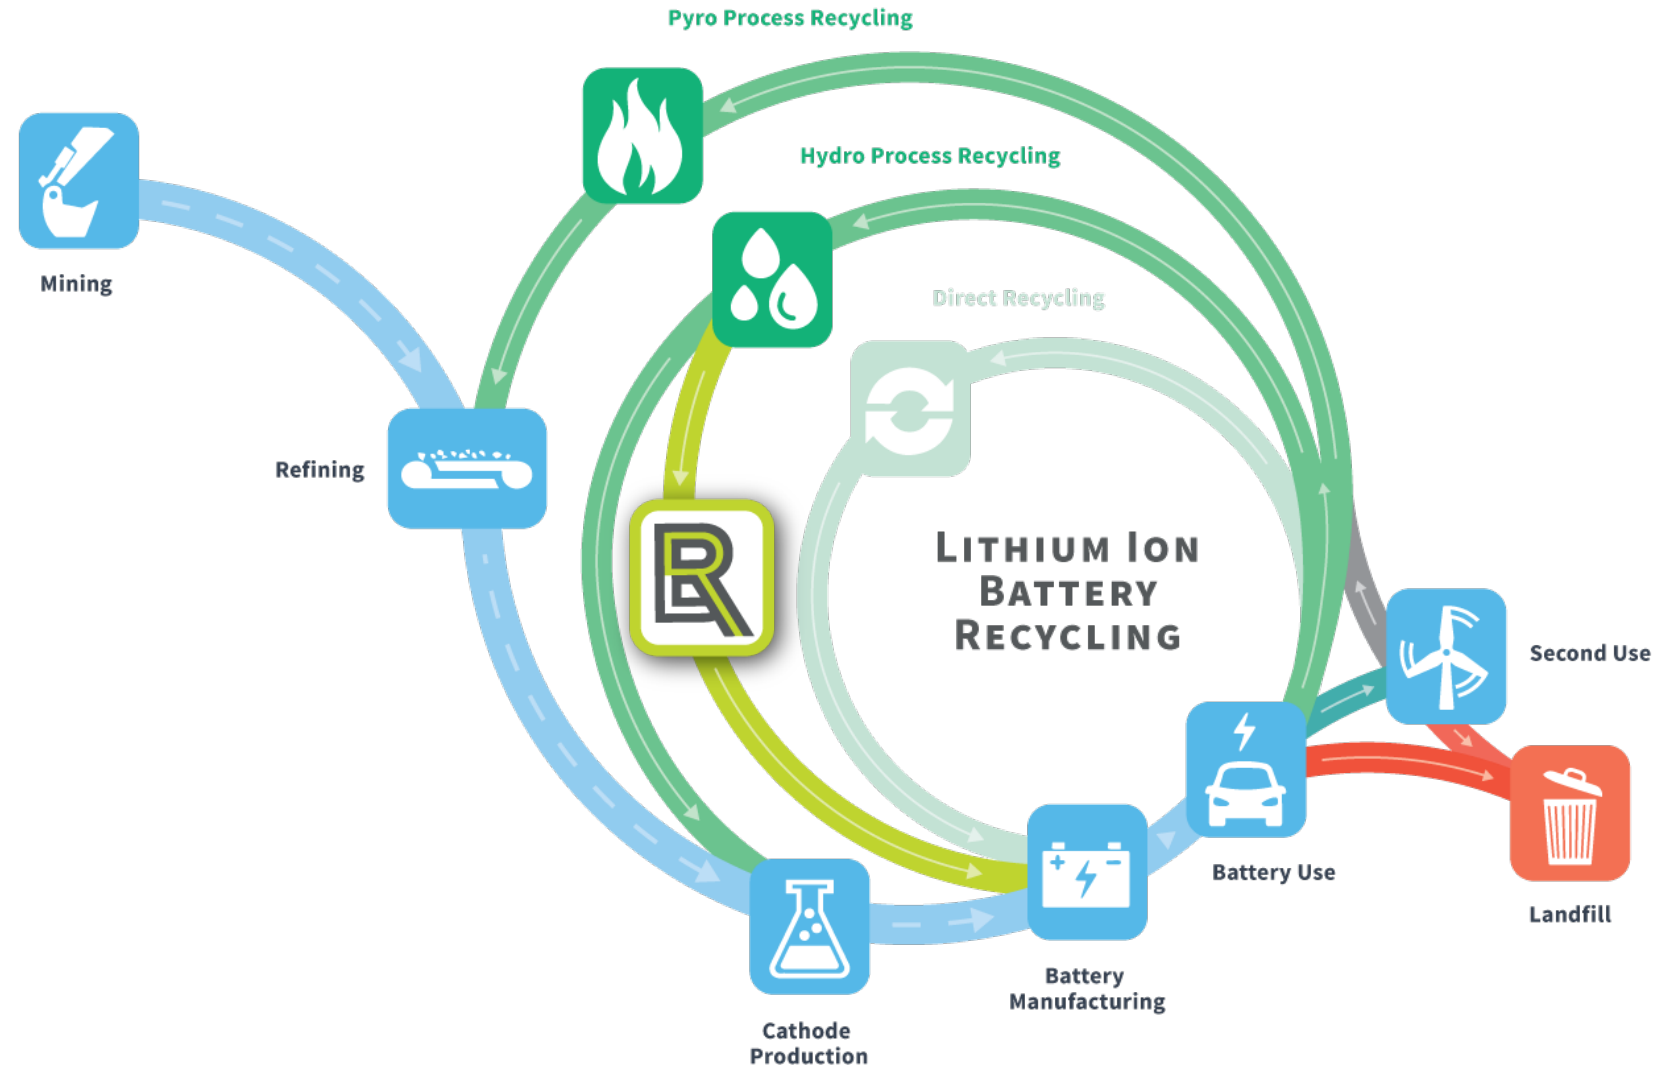

NaatBatt Update February 2020

Joe Bush, PhD. - VP Business Development

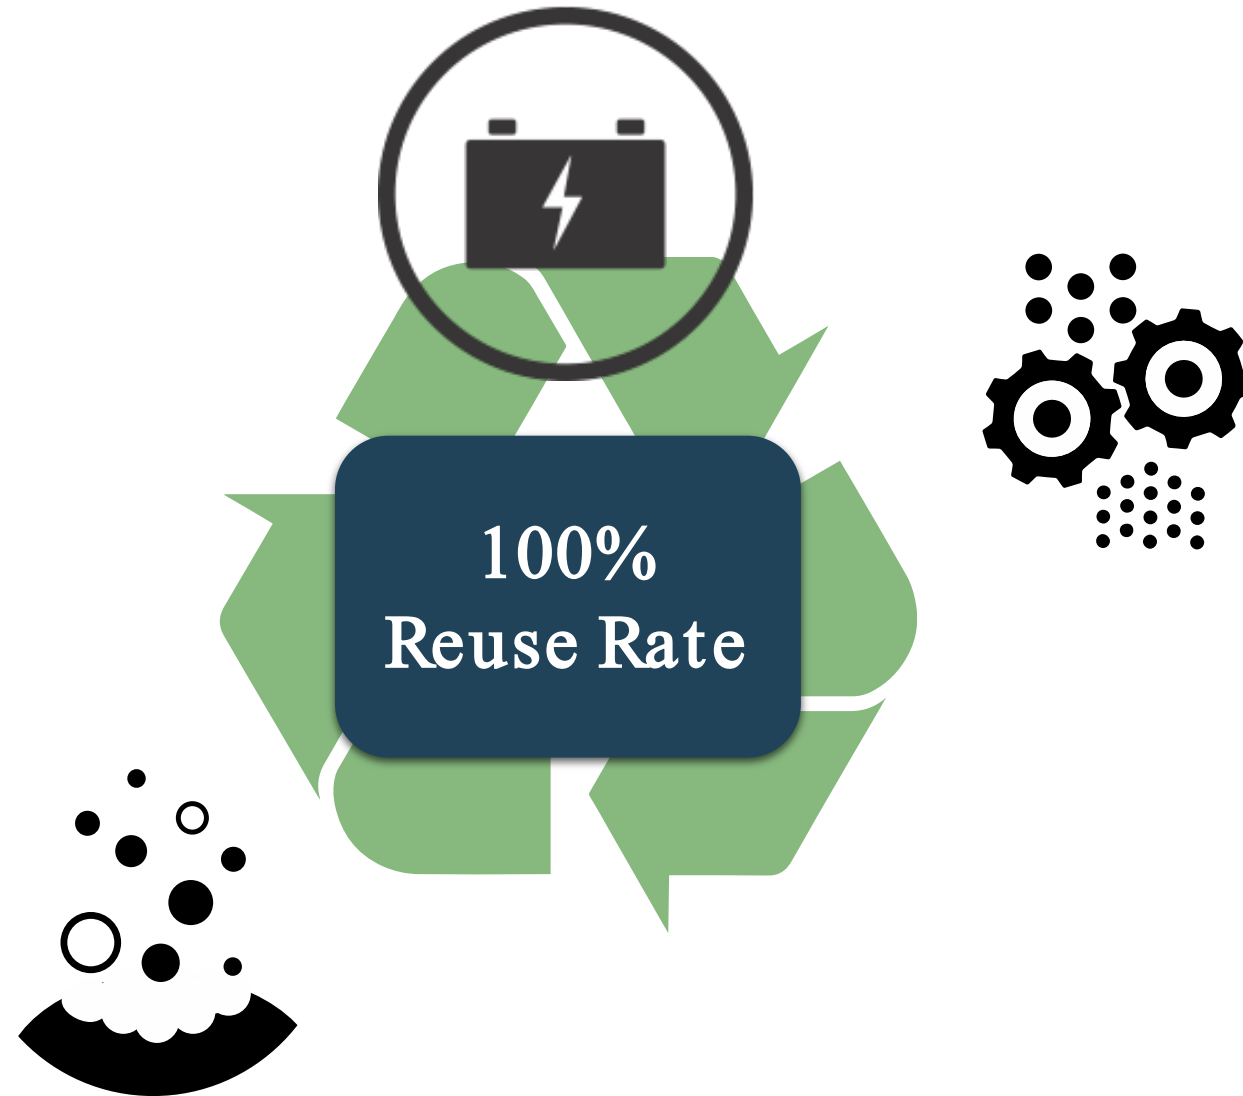

Technological Landscape

Battery Resources:

- 100% Reuse Rate
- Engineered Product
- Direct to Battery
- Reduced OPEX
- Lower Cost
- Lower GHG Emissions

Our Approach

Starting with the end in mind:

Sustainable End-of-Life Solutions

Secure Supply Chain for Critical Energy Materials

Lowest Cost to Produce Cathode

Highest Revenue Generation per Ton Recycled

PILOT

Recycling 500kg/day

Accepting Requests for qualification trials:

NMC 622

-d(50): 10-12um

-d(50): 5-6um

NMC PLANT – 1kt/yr (21Q2) to >5kT (2024)
